

GENERICCORE

GROUP

**We ask the
right questions
in order to
deliver
exceptional value.**

Engineering your vision into life, into success, into reality

COMPANY PROFILE

Generic Core offers comprehensive turnkey electrical engineering solutions.

We specialise in Electrical, Mechanical and ICT projects; from conceptual design to full installation and commissioning.

Our design software, professional processes and back-up service enable us to promise quality as a hallmark of everything we undertake.

Generic Core has been delivering a quality, professional service to our clients for over 10 years, and we look forward to being of service to you.

OUR VISION

To be the top quality service provider of choice for clients who require a quality, professional, comprehensive electrical engineering solution from a single service provider.

WHAT MAKES US DIFFERENT

We have a solid 10 year track record of success, which we believe is the result of exceptional quality in all we do. We are able to deliver quality because of:

- Continuous investment in our business, including resources and facilities that enable us to offer the very best design, professional advice and service
- Our Professionalism & Integrity. Accuracy and attention to detail are paramount, as are our professional accreditations and standards, which we are proud of and believe set us apart from our competitors.
- Our Responsiveness. Our turnaround is 24 hours. We make our client's needs our absolute priority.
- We ask the right questions in order to deliver exceptional value. We will give you considered advice and cost a project with all of the variables considered. For example... How will the components perform over time and what will be the cost of repair & replacement? Are they SABS approved? Are replacement parts readily available? How will the environment and climate affect performance and longevity? We will always endeavor to deliver the best possible value.

We offer:

Project Engineering: (Design, documentation & costing)

Project Implementation: (Construction, installation, Quality assurance and commissioning)

Project Management: (Design review, documentation, Risk evaluation, Quality, time and cost management).

EXPANDED DESCRIPTION OF OUR SERVICES AND PRODUCTS

GENERICCORE

ENGINEERING SERVICES

Electrical Services

- Systems Design and Installation
- System Maintenance and Upgrade
- Project Management
- Back-up Generator And UPS Installation
- Design And Installation Of Energy Efficient Lighting and Appliances
- Infrastructural Electrical Design and Installation
- Building services Electrical Design and Installation

GENERICCORE

IT SOLUTIONS

Information Technology Services

- Process Flow Control Applications, CRM Systems And Databases
- Support Services – Network Installation, Maintenance, Administration, Network Upgrade, Software Upgrades and Reconfigurations
- Hardware Provider – IT Systems, Consumables And Components
- Solution Provider – Design Of Systems,
- Implementation, Installations, Configurations and Setup, Skills Transfer And Maintenance
- Service Provider – Independent Software Testing

BUSINESS INFORMATION

The company's main operations are in Polokwane, Limpopo Province. From this office we are able to service the entire province and have associations with partners that enable us to service the rest of the country.

Enterprise Status:

Operational

Registration Number:

2004/042043/23

Ownership BEE Status:

100% Black owned and run: LEVEL 1 contributor

VAT Number:

4950 250 474

Description of Principal Business:

Electrical, Project Engineering, Project Management, Mechanical and Information Technology

COMPANY ACCREDITATION

Certification:

Professional Engineering Technologist - 200970240

Certification:

Candidate Construction Project Managers – B/921/2010

Electrical Contracting Board:

TN2-004886

CIDB Grading:

6EBPE, 4EPPE, 6MEPE, 1CEPE, 1GBPE, 1SIPE

MANAGEMENT CV

Thabo Molekwa: General Manager

National Diploma in Computer Systems Engineering, with 9 years in the technology and engineering field and 3 years of project management. Mr. Molekwa oversees all the projects' coordination, resources allocation and management.
E-mail thabo@genericcore.co.za

Jacob Lekalakala: Electrical Engineering Planner

Electro-Mechanical Engineering and Project Management, MSAIEE. Professional Institution and Specialization in Design, Project Management, Building Electrical/Mechanical Draughting and Electrical Reticulation with 11 Years of Experience and a list Projects Handled
E-mail: jacob@genericcore.co.za

Raymond Mnguni: Civil Engineer

He has been involved in road-based public transport planning. His key experience includes identification of short-comings in the public transport system, public participation, liaison with various stakeholders, coordination of surveys, and analysis of public transport network status quo, determination of upgrading requirements, preparation of public transport master-plans, and preparation of public transport reports
E-mail: norman@genericcore.co.za

Norman Kaapu: Senior Electrical Technician

N6 (Electro-Mechanical) and 8 years' experience of Electrical Technical knowledge. Specialization in Design, Project Management, Building Electrical, Building Mechanical, Draughting and Electrical reticulation.
E-mail: norman@genericcore.co.za

PROJECTS COMPLETED

#	Project Name	Type	Project Amount	Year Completed	Client
1	Chalema Clinic (Building)	Electrical	R 500,000.00	2007	Usizo Engineering
2	Chalema Clinic (3km 3 Phase Line)	Electrical	R 600,000.00	2007	Usizo Engineering
